1	visa	Visa	September 30
2	mastercard	Mastercard	December 31

Metric definitions

28 rows. Columns 1-6 of 7. Row numbers repeat across column panels.

Row	Metric code	Metric	Formula	Unit	Status	Limitations
1	Net revenue	Reported net revenue	Net revenue	USD	ready	Issuer-specific revenue mix/incentives; no constant-currency adjustment.
2	operating_expenses	Reported operating expenses	operating_expenses	USD	ready	GAAP costs retained; no special-item or litigation adjustment.
3	operating_income	Reported operating income	operating_income	USD	ready	Not adjusted operating income.
4	Net income	Reported consolidated net income	Net income	USD	ready	Not automatically parent-attributable earnings or an EPS numerator.
5	operating_cash_flow	Reported operating cash flow	operating_cash_flow	USD	ready	Working capital, tax and litigation timing may affect cash; not recurring cash by default.
6	Cash and cash equivalents	Balance-sheet cash and cash equivalents	Cash and cash equivalents	USD	ready	No substitution of cash-flow ending cash including restricted components; not all cash is necessarily freely distributable.
7	current_debt	Reported current debt carrying amount	current_debt	USD	ready	Not total current liabilities or next-twelve-month principal; no leases silently added.
8	noncurrent_debt	Reported noncurrent debt carrying amount	noncurrent_debt	USD	ready	Selected disclosed carrying line, not all liabilities or unverified financing.
9	total_assets	Reported total assets	total_assets	USD	ready	Includes noncash assets and goodwill; not liquidity.
10	total_liabilities	Reported total liabilities	total_liabilities	USD	ready	Includes operating, settlement and tax liabilities; not pure borrowing.
11	net_revenue_yoy_growth	Reported net revenue YoY growth	net_revenue[t] / net_revenue[t-1] - 1	fraction	ready	Prior base must be positive. FY2021 is undefined without verified FY2020. Negative current values can yield below -100%; no FX/acquisition normalization.
12	operating_income_yoy_growth	Reported operating income YoY growth	operating_income[t] / operating_income[t-1] - 1	fraction	ready	Prior base must be positive. FY2021 is undefined without verified FY2020. Negative current values can yield below -100%; no FX/acquisition normalization.
13	operating_margin	Operating margin	operating_income / net_revenue	fraction	ready	Denominator must be positive. Negative operating income retained; reported GAAP basis.
14	net_margin	Consolidated net margin	net_income / net_revenue	fraction	ready	Denominator must be positive. Negative net income retained; affected by tax/nonoperating items.
15	operating_expense_ratio	Operating expense ratio	operating_expenses / net_revenue	fraction	ready	Denominator must be positive. Do not double-count customer incentives already netted from revenue.
16	cash_conversion	OCF / consolidated net income	operating_cash_flow / net_income	multiple	ready	Denominator must be positive. Nonpositive net income undefined; negative OCF retained. Above 1 does not prove sustainable earnings or causes.

Row	Metric code	Metric	Formula	Unit	Status	Limitations
17	operating_margin_yoy_change	Operating margin YoY change	100 * (operating_margin[t] - operating_margin[t-1])	percentage_points	ready	Percentage-point difference, not relative percentage growth; requires two valid annual margins.
18	capital_payments_defined	Defined capital cash payments	Visa: property/equipment/technology payments; Mastercard: PPE + capitalized software payments	USD	ready	Issuer scope differs. Excludes business acquisitions, investments and leases outside these rows; not uniform company-reported CapEx.
19	fcf_proxy	OCF less defined capital payments proxy	operating_cash_flow - capital_payments_defined	USD	ready	Non-GAAP analytical proxy; not company-reported FCF, freely distributable cash, recurring cash or debt-service capacity. No litigation/tax adjustments; show OCF-to-proxy bridge.
20	fcf_proxy_margin	FCF proxy / net revenue	fcf_proxy / net_revenue	fraction	ready	Denominator must be positive. Inherits issuer-specific FCF limits; negative values retained.
21	debt_carrying_total	Selected current + noncurrent debt carrying total	current_debt + noncurrent_debt	USD	ready	Both components must be present, including explicit reported zero. Not total liabilities, principal maturities, leases or all unverified obligations.
22	net_debt_cash_equivalents_proxy	Selected debt less cash-equivalents proxy	debt_carrying_total - cash_and_cash_equivalents	USD	ready	Retain negatives, never floor at zero. No restricted cash, investments, leases or other financing added; no claim all cash is freely available.
23	debt_to_assets	Selected debt / total assets	debt_carrying_total / total_assets	fraction	ready	Denominator must be positive. Not liabilities/assets; asset mix and goodwill affect interpretation.
24	liabilities_to_assets	Total liabilities / total assets	total_liabilities / total_assets	fraction	ready	Denominator must be positive. Includes operating/settlement/tax liabilities; not pure borrowing leverage.
25	cash_to_debt_ratio	Cash equivalents / selected debt	cash_and_cash_equivalents / debt_carrying_total	multiple	ready	Denominator must be positive. Not current ratio, maturity coverage or proof of repayment ability.
26	payment_volume	Issuer-specific payment volume	Worldwide purchases excluding cash, in nominal USD, for each issuer fiscal year.	USD	ready	Issuer fiscal years end on different dates. Worldwide purchase volume excludes cash and is reported in nominal USD; FX movements affect growth. Issuer coverage differs, so this is not a calendar-aligned or FX-neutral market-share comparison. Source evidence: references/industry_evidence.json.
27	network_transactions	Processed / switched transactions	Visa processed transactions and Mastercard switched transactions; issuer-specific scopes.	count	ready	Visa counts processed transactions and Mastercard counts switched transactions. Network coverage and fiscal dates differ; these counts do not represent all branded transactions or active cards. Comparisons are descriptive, with no market-share or per-card conclusion. Source evidence: references/industry_evidence.json.

Row	Metric code	Metric	Formula	Unit	Status	Limitations
28	customer_incentives	Issuer-specific customer incentives	Visa reported client incentives; Mastercard derived payment-network revenue deductions using a consistent reclassified scope.	USD	ready	Issuer fiscal dates and scopes differ. Nominal volume is not FX-neutral. Transaction counts are network-specific. Incentives are accrued revenue deductions, not cash paid. Mastercard deductions are derived from rounded network components; FY2023 has a disclosed 1m rounding residual versus narrative.

Follow-up questions

14 rows. Columns 1-6 of 9. Row numbers repeat across column panels.

Row	Company code	Fiscal year	Family	Finding	Follow-up question	What this does not show
1	visa	2025	Liquidity scope	Cash-equivalents 17164000000 USD and cash/debt 0.68x describe selected balances, not available liquidity.	What cash is available for general use after restricted/client funds and settlement buffers, and what other obligations require liquidity?	No current ratio, freely distributable cash or maturity coverage conclusion.
2	visa	2025	Debt refinancing	Selected carrying debt changed 4335000000 USD; debt-minus-cash changed -854000000 USD. Both movements need context.	How do principal maturities, interest/currency terms and subsequent repayments/new borrowings change the frozen carrying balances?	Higher debt alone is not a default conclusion; carrying amounts are not principal maturities or all financing obligations.
3	visa	2025	Margin legal costs	Reported operating margin is 59.99%; Chapter07 separates expense accruals, tax and cash.	Which disclosed legal, regulatory and operating cost items recur, and how do later legal outcomes change expense and liquidity?	Provision is not same-year cash paid or total potential legal exposure; no normalized profit or legal-outcome probability.
4	visa	2025	Cash timing	Reported OCF/consolidated NI is 1.15x; own-year growth patterns and prior cash bridges are retained.	How do incentives, tax timing and operating-balance changes explain cash support, without deducting supplemental cash twice?	A ratio above 1 is not proof of recurring cash or debt-service capacity.
5	visa	2025	Settlement counterparty	The network has contingent settlement obligations and collateral/mitigation arrangements.	What exposure basis, customer concentration, collateral availability and stressed settlement needs are disclosed on comparable dates?	Disclosed exposure is not expected loss; Visa daily maxima and Mastercard estimated end-date exposure are not a common denominator.
6	visa	2025	Operational cyber	The issuer describes cybersecurity/resilience and third-party dependencies.	Do subsequent material incident, outage or third-party disclosures affect service capacity, costs or financial reporting?	Control/program descriptions do not establish incident absence or quantified residual risk.
7	visa	2025	Source freshness	FY2025 period end is 394 days before the analysis date; filing age is 357 days.	What later quarterly/annual filings or material events must be reviewed before using these historical signals for a current decision?	The historical baseline does not establish 2026 conditions or whether a stated past maturity was repaid.
8	mastercard	2025	Liquidity scope	Cash-equivalents 10566000000 USD and cash/debt 0.56x describe selected balances, not available liquidity.	What cash is available for general use after restricted/client funds and settlement buffers, and what other obligations require liquidity?	No current ratio, freely distributable cash or maturity coverage conclusion.
9	mastercard	2025	Debt refinancing	Selected carrying debt changed 774000000 USD; debt-minus-cash changed -1350000000 USD. Both movements need context.	How do principal maturities, interest/currency terms and subsequent repayments/new borrowings change the frozen carrying balances?	Higher debt alone is not a default conclusion; carrying amounts are not principal maturities or all financing obligations.
10	mastercard	2025	Margin legal costs	Reported operating margin is 57.63%; Chapter07 separates expense accruals, tax and cash.	Which disclosed legal, regulatory and operating cost items recur, and how do later legal outcomes change expense and liquidity?	Provision is not same-year cash paid or total potential legal exposure; no normalized profit or legal-outcome probability.
11	mastercard	2025	Cash timing	Reported OCF/consolidated NI is 1.18x; own-year growth patterns and prior cash bridges are retained.	How do incentives, tax timing and operating-balance changes explain cash support, without deducting supplemental cash twice?	A ratio above 1 is not proof of recurring cash or debt-service capacity.
12	mastercard	2025	Settlement counterparty	The network has contingent settlement obligations and collateral/mitigation arrangements.	What exposure basis, customer concentration, collateral availability and stressed settlement needs are disclosed on comparable dates?	Disclosed exposure is not expected loss; Visa daily maxima and Mastercard estimated end-date exposure are not a common denominator.
13	mastercard	2025	Operational cyber	The issuer describes cybersecurity/resilience and third-party dependencies.	Do subsequent material incident, outage or third-party disclosures affect service capacity, costs or financial reporting?	Control/program descriptions do not establish incident absence or quantified residual risk.

Row	Company code	Fiscal year	Family	Finding	Follow-up question	What this does not show
14	mastercard	2025	Source freshness	FY2025 period end is 302 days before the analysis date; filing age is 260 days.	What later quarterly/annual filings or material events must be reviewed before using these historical signals for a current decision?	The historical baseline does not establish 2026 conditions or whether a stated past maturity was repaid.
