Questions for Further Investigation

FY2025 follow-up register only. Blank at other years does not mean no risk. These are questions, not scores or probabilities.

CompanyName

All

FiscalYear

2025

CompanyName	Family	FollowUpQuestion	CannotConclude
Mastercard	cash_timing	How do incentives, tax timing and operating-balance changes explain cash support, without deducting supplemental cash twice?	A ratio above1 is not proof of recurring cash or debt-service capacity.
Mastercard	debt_refinancing	How do principal maturities, interest/currency terms and subsequent repayments/new borrowings change the frozen carrying balances?	Higher debt alone is not a default conclusion; carrying amounts are not principal maturities or all financing obligations.
Mastercard	liquidity_scope	What cash is available for general use after restricted/client funds and settlement buffers, and what other obligations require liquidity?	No current ratio, freely distributable cash or maturity coverage conclusion.
Mastercard	margin_legal_costs	Which disclosed legal, regulatory and operating cost items recur, and how do later legal outcomes change expense and liquidity?	Provision is not same-year cash paid or total potential legal exposure; no normalized profit or legal-outcome probability

Metric Definitions

28 definitions. Both issuers have FY2021-2025 industry series. Page 07 shows values and issuer-specific scope.

Metric	Formula	Status	Limitations
Balance-sheet cash and cash equivalents	cash_and_cash_equivalents	ready	No substitution of cash-flow ending cash including restricted components; not all cash is necessarily freely distributable.
Cash equivalents / selected debt	cash_and_cash_equivalents / debt_carrying_total	ready	Denominator must be positive. Not current ratio, maturity coverage or proof of repayment ability.
Consolidated net margin	net_income / net_revenue	ready	Denominator must be positive. Negative net income retained; affected by tax/nonoperating items.
Defined capital cash payments	Visa: property/equipment/technology payments; Mastercard: PPE + capitalized software payments	ready	Issuer scope differs. Excludes business acquisitions, investments and leases outside these rows; not uniform company-reported CapEx.
FCF proxy / net revenue	fcf_proxy / net_revenue	ready	Denominator must be positive. Inherits issuer-specific FCF limits; negative values retained.
Issuer-specific customer incentives	Visa reported client incentives; Mastercard network assessments	ready	Fiscal dates and network scopes differ. Mastercard deductions use reclassified payment-network scope;

Network Activity and Revenue Deductions

CompanyName	FiscalYear	Purchases (USD bn)	Network transactions (m)	Revenue deductions (USD m)
Mastercard	2021	5959	112090	10476
Mastercard	2022	6571	125680	12445
Mastercard	2023	7345	143196	15181
Mastercard	2024	8003	159424	17629
Mastercard	2025	8799	175464	20522
Visa	2021	10401	164734	8367
Visa	2022	11614	192530	10295
Visa	2023	12338	212579	12297
Visa	2024	13193	233758	13764
Visa	2025	14217	257545	15751

FY2021-2025. Visa: September 30 year-end. Mastercard: December 31 year-end. Purchases exclude cash; nominal USD.
Visa transactions are processed; Mastercard transactions are switched. Network scopes differ.
Visa incentives are reported consolidated amounts. Mastercard deductions = network assessments less network net revenue.
FY2023 Mastercard: derived USD15,181m; narrative USD15,182m (rounded inputs). Revenue deductions are not cash paid.
